TO WHOSOEVER IT MAY CONCERN

*We have imported an alkaline water purifier from Japan. We needed somebody to install it. However since it was not made in India & instructing manual was in Japanese language, it was difficult to find somebody who can successfully install it. Fortunately we met Mr. Chandan Mantri from C. M. Enterprises who committed us to install this Japanese water purifier at the earliest. We are impress with his dedicated services & the courtesy extended by him. His services are highly recommended.*
